

CHITOU Mouhamed Bhilal Aladé

Full-Stack & Mobile Developer

Benin | 7bhilal.chitou7@gmail.com | github.com/7Bhil | linkedin.com/in/7Bhil | 7bhil.vercel.app

PROFILE

Graduate in Management Information Systems from the University of Parakou, specialized in end-to-end web and mobile application engineering (frontend & backend). Rigorous and results-driven, seeking an internship or junior role in Software Engineering, Full-Stack, Mobile or Cybersecurity within an ambitious technical team.

PROFESSIONAL EXPERIENCE

Web Developer (Intern) — Busola NGO

Institutional Web Platform | Link: busolaong.com

- Designed and developed the institutional web platform for Busola NGO, structuring content architecture, building responsive user interfaces, and integrating presentation modules for initiatives, projects, and resources.
- Engineered the software architecture, integrated backend services, and optimized cross-device responsive performance.

Technologies: MongoDB, Express, React, Node.js (MERN)

FEATURED PROJECTS

BhilCours — Online E-Learning Platform

Technologies: React, Django, PostgreSQL | Link: bhilcours.netlify.app

- Architected and developed an e-learning platform dedicated to structured educational resources and course delivery.
- Designed modular course organization, intuitive user workflows, and seamless access to educational content.

GoRéparr — Service Marketplace (Artisans & Contractors)

Technologies: React, Laravel, PostgreSQL | Link: go-reparr.vercel.app

- Engineered a service marketplace platform connecting clients with verified local artisans and service providers.
- Implemented contractor profile management, automated quote/service request pipelines, and intervention tracking.
- Configured cloud deployment pipeline and maintained production-grade availability.

Vitch — Fintech Digital Wallet & Virtual Currency Platform

Technologies: Next.js, NestJS, MongoDB | Link: vitch.vercel.app

- Engineered secure user account management and real-time ledger accounting for virtual wallet balances.
- Implemented end-to-end secure transaction processing, wallet state management, and real-time balance reconciliation.
- Architected robust authentication security and an administrative analytics dashboard for monitoring transactions.

DevChallenge — Developer Coding Challenge Platform

Technologies: MongoDB, Express, React, Node.js | Link: challenge-react-delta.vercel.app

- Created an interactive platform offering technical and algorithmic coding challenges for developers.
- Implemented automated solution submission verification, user progression tracking, and real-time dynamic leaderboards.

Bhil Documentations — Technical Documentation & Knowledge Base

Technologies: React | Link: bhil-documentations.netlify.app

- Centralized and structured in-depth technical guides, architecture specifications, and the official Bhil Language documentation.

Bhil Language — *Multi-Target Programming Language & Compiler*

Technologies: *Node.js, Go*

- Engineered a custom language grammar, handwritten lexer, and AST parser with a hybrid compilation engine: transpilation to Go for compute-intensive workloads and to JavaScript for lightweight scripting.

EDUCATION

Bachelor of Science in Management Information Systems — University of Parakou / IUT Parakou

2023 – 2026 (Graduated in 2026)

TECHNICAL SKILLS

- **Frontend:** React, Next.js, Vue.js, JavaScript, HTML, CSS, Tailwind CSS
- **Backend:** Node.js, Express, NestJS, Laravel, Django, PHP, Python
- **Mobile:** React Native
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Programming:** C, JavaScript, C++, PHP, Python, Java, Dart
- **Tools:** Git, GitHub, Linux, VS Code
- **Cybersecurity:** OSINT, network reconnaissance, Nmap, Shodan

AREAS OF INTEREST

Full-Stack Engineering, Mobile Development, Fintech Architecture, Cybersecurity, Open Source, Artificial Intelligence.
